

# EDB Postgres Training and Certification

## Training That Delivers Education, Experience, and Excellence

Training is a critical component of any successful Postgres environment, ensuring that expertise is cultivated while reducing risk and maximizing value.

EDB training courses are created and delivered by Postgres experts with hands-on experience who will show you how to quickly manage your database responsibilities based upon years of real-world experience.

World-class training that fits your needs, with role-based tracks made available:

- » On-Demand eLearning
- » Live Online
- » Classroom

Plus, flexible EDB Postgres Training eSubscriptions and EDB Postgres Training Credits take the hassle out of procuring training.

## Certification That Defines the Industry Global Standard

Our certification program sets the global standard for Postgres professionals. Certified professionals fill a growing and critical need for Postgres knowledge and experience in today's competitive enterprise environments.

Holding a certification from EDB affirms your Postgres skills, and employers seek out certified professionals for their proven proficiency and the ability to perform effectively.

We provide training directly aligned with exam topics and deliver exams in a convenient online format, keeping the process streamlined.

## Highlights

### Reduce Risk

Our training and certification ecosystem unites the best Postgres community resources and brightest available minds to ensure you use Postgres as a cornerstone of your overall data management strategy.

### Faster Time to Value

By aligning training and certification with real-world business needs, your teams will be up and running faster with proven, consistent quality that can't be matched by self-taught learning.

### Expert Guidance

Our enterprise-class curriculum, highly proficient and experienced instructors and certified partners, industry-proven best practices, and flexible purchase and consumption models to ensure that your projects are on the fast track to success.

# World-Class Training That Fits Your Needs
