## TRAINING, CERTIFICATION, AND SERVICES

### TRAINING, CERTIFICATION, AND SERVICES

#### FACT SHEET

On behalf of EDB, we welcome you to the Postgres community.

We are committed to helping companies achieve unparalleled success building and deploying PostgreSQL and EDB Postgres solutions. Our services ecosystem unites the best Postgres community resources and brightest available minds to help you use Postgres as a cornerstone of your data management and application strategy. Whether you're attending one of our training courses, completing a certification exam, or leveraging our expert consulting services, EDB will be with you every step of the way.

#### Here is a summary of Postgres Training, Certification, and Services offerings available to your organization:

##### Training That Delivers Education, Experience, and Excellence

Training is a critical component of a successful Postgres environment, ensuring that expertise is cultivated while reducing risk and maximizing value. EDB training courses are created and delivered by experienced Postgres experts who will quickly enable you to manage your database responsibilities successfully.

- [Free Training](#) on Postgres Administration essentials and architecture, to get you started right away
- World-class training that fits your needs: classroom, onsite, online, or eSubscriptions
- DBA and developer course tracks available
- Advanced courses cover reliability, migration, performance tuning and more
- Lab exercises & demos enable you to quickly put new skills into practice in your own environment.

For more details, visit our [Training page](#), [training catalog](#) or interactively [search for classes](#).

##### Industry-Recognized Global Standard Certification

Our Certification program sets the global standard for Postgres professionals, and individuals certified under this program fill a growing and critical need for Postgres knowledge in enterprise environments. Holding a certification from EDB affirms a database professional's Postgres skills, and employers trust certifications as industry-acknowledgement of proficiency and the ability to perform effectively.

We offer Associate and Professional level programs for both PostgreSQL and EDB Postgres Advanced Server. We also provide training directly related to exam topics and deliver exams in a convenient online format. [Digital badges](#) provide visibility and verification of skills and credentials.
