

**INCREASE YOUR
SPEED TO MARKET**

**WITH A FULLY
SUPPORTED DEV
ENVIRONMENT**

EDB POSTGRES™ DEVELOPER

**For Application
Designers,
Architects and
Developers**

An EDB Postgres Developer subscription addresses the needs of application designers, architects and developers by providing non-production use and licensing of EDB software (EDB Postgres Advanced Server and all EDB tools), and technical support of PostgreSQL, EDB Postgres Advanced Server, and all EDB tools.

**Work in a Supported
and Updated
Environment**

An EDB Postgres Developer subscription provides the benefit of working in a licensed, supported and updated environment along with access to experts who can help resolve design issues, configure and optimize the database setup, and diagnose Postgres-related issues. If you are new to Postgres and still in assessment mode, an EDB Postgres Developer subscription is extremely useful in discovering and evaluating the full capabilities and potential cost savings offered by PostgreSQL or EDB Postgres Advanced Server.

**Enjoy the Benefits
of All Things Postgres**

You will receive the benefits of our production subscriptions including maintenance updates, technical alerts, support from Postgres experts with access to community members, PDF documentation, and access to our free Oracle migration portal.

FASTER TIME TO MARKET

EDB Postgres Developer subscription provides a fast path to application deployment by integrating your development efforts with EDB tools for migration, integration, and management while preparing mission-critical production systems.

MISSION-CRITICAL TOOL SUITES

Design, customize, and test your mission-critical deployments with EDB's tool suites for migration, integration and management with PostgreSQL or EDB Postgres Advanced Server. Only EDB offers such a comprehensive set of enterprise tools designed specifically for Postgres by Postgres experts with consistent documentation, support, quality and feature roadmaps.

TECHNICAL SUPPORT

- 1- or 3-year terms
- Native Package Installers
- 10 x 5 access to technical support
- 4 named contacts per subscription
- HTML or PDF documentation
- Customer Portal access
- Knowledge base

SUBSCRIPTION DETAILS

EDB Postgres Developer subscription applies only to non-production environments and does not apply to production database deployments. Covered software includes:

- EDB PostgreSQL, EDB Postgres Advanced Server
- EDB Postgres Management Suite: EDB Postgres Enterprise Manager
- EDB Postgres Failover Manager
- EDB Postgres Backup and Recovery
- EDB Postgres Integration Suite: EDB Postgres Replication Server, EDB Postgres Data Adapters
- EDB Postgres Migration Suite: EDB Postgres Migration Toolkit
- Software maintenance consisting of feature updates and fixes as well as technical and security alerts.
- Database technical support (e.g., break/fix) for EDB PostgreSQL, EDB Postgres Advanced Server and all EDB tools.
- Four technical support contacts are allowed per subscription.
